Main variations

Net interest income: good performance in liquidity and the repricing of wholesale liabilities offset the reduction in loan yield

Fees and commissions: recovered in the quarter with good activity in payments, asset management and insurance

Others: Lower contributions from the SRF and DGF in the year

Costs: In line with guidance for the year, quarterly increase is due to the achievement of targets

Other provisions / impairments: increase due to the allocation of restructuring costs for staff renewal

(1) P&L 2023 restated by IFRS 17. Small impacts mainly in net interest income, associates and other income

Net interest income quarterly evolution (€m)

Deposits: Higher interest-bearing deposit balances

Lending: Lower credit volumes along with lower loan yields

Liquidity: Commercial gap improvement in the quarter by ~€1.5bn

Wholesale: Higher contribution from the ALCO portfolio and lower wholesale funding costs due to negative repricing

Fee income

Fees evolve towards a mix of greater added value products for the customer

Green buildings	€242m (Developer Mortgages) €1,669m (Residential Mortgages)	Climate change mitigation	  

€2,396m ⁽¹⁾ Total of eligible loans under the Technical Screening Criteria (TSC) of EU Taxonomy, with 3 year lookback period

(1) Eligible projects have integrated the EU taxonomy technical screening criteria. Under no circumstances will projects included in our [exclusion criteria](#) policy be considered eligible under this framework.

Green Bond Framework: (2) Evaluation and selection & (3) Management of proceeds

2

Evaluation and selection

The bank will maintain **an inventory of all types of assets/loans, sectors and products** associated with the financings included in the GBF that will be assessed in regular basis by the **ESG Working group**

The Exclusionary Criteria⁽¹⁾ avoids financing activities that may be contrary to the Group's principles of sustainability

3

Management of proceeds

Green Bond Register

The projects will be subject to a detailed control through their inclusion in a specific data base (green bond register) for monitoring their evolution. The green bond register will be dynamic since eligible projects will mature or might become ineligible and new eligible projects will be included in the register.

It will be constructed and maintained by the ESG Working Group on quarterly basis

It will include relevant information of the bonds issued and details of the Eligible Green Projects (needed to assess the eligibility criteria and to calculate the environmental impact)

An excess of eligible projects will be maintained to ensure compliance with the requirements of the use of proceeds.

Green Bond Register principles

Unallocated proceeds to eligible projects will be held in accordance with Unicaja's normal liquidity management.

Unicaja commits to fully allocate the proceeds of any green bonds issued under this Framework within the next 24 months after issuance date

Any project attached to a green bond issued that no longer meets the requirements will be replaced within a maximum of 12 months

Methodologies of general acceptance in the market will be used for the calculation of the environmental impacts associated with Unicaja's green bonds.

(1) [Exclusion criteria](#) available in our web page.

Green Bond Framework: (4) Reporting

4

Allocation Report

- It will be updated in the event of any material changes affecting Eligible Green Projects.
- It will include the amount of the net proceeds of the Green Bond.
- Percentage of proceeds allocated for financing and refinancing.
- The balance of unallocated proceeds at the end of the reporting period (if applicable).

Impact Report

- It will be published on annual basis
- Information on expected environmental impacts by project category (category level).
- Other positive impacts of eligible projects.
- A description of eligible projects.
- The methodologies and assumptions used for the calculation of the impact.

Example of impact metrics

Green buildings

Estimated annual GHG emissions reduced/avoided (in tonnes of CO2 equivalent)

Environmental Certifications/EPC labels obtained

Renewable energy

Estimated annual GHG emissions reduced/avoided (in tonnes of CO2 equivalent)

Installed capacity (MW)

Estimated renewable energy production (MWh, future projects) or Renewable energy produced (MWh, past and future projects, where feasible)

Green Bond Framework: (5) External review

5

Second Party Opinion

- “On the basis of the information provided by UNICAJA and the work undertaken, it is DNV’s opinion that the Framework meets the criteria established in the Protocol and that it is aligned with the stated definition of green bonds within the Green Bond Principles 2021”.
- DNV concludes that...
 - The Framework describes the proposed utilization of proceeds.
 - The Framework appropriately describes the process of project evaluation and selection and is in line with the requirements of the GBP.
 - There is a clear process in place for the management of proceeds as outlined within the Framework, and that meets the requirements of the Sustainable Financing on the GBP.

Appendix

2023 environmental impact of Green Bonds

The detail of the estimated environmental impact ⁽¹⁾ for the projects assigned to each of the two green bonds issued by Unicaja Banco, calculated considering the full calendar year for the bonds issued in 2022 and, calculated considering the period from the date of issue until 31/12/2023 for the bond issued in 2023, is as follows:

			Impact Indicators			43
	Allocated projects (#)	Allocated balance in € million	Impact in Tm CO ₂ avoided ⁽¹⁾	Energy generated (MWh/year)	Installed capacity (MWP)	SDG
Renewable energy ⁽²⁾	43	486	54,488	452,653	623	 
Wind	2	23	819	6,684	31	
Photovoltaic	32	370	45,272	369,584	564	
Thermo-solar	9	93	8,398	76,384	28	
Green buildings	3,234	815	302	-	-	  
Finished residential mortgages	3,167	537	171			
Residential developments	67	277	131			
Total	3,277	1,300	54,791	452,653	623	

(1) The environmental impact applies to the full year 2023 for the first two emissions and, in the case of the third issuance, from the date of issue until December 31, 2023.

(2) The impact of emissions avoided in renewable energy projects has been calculated considering Unicaja Banco's percentage stake in each financing project.

Important legal information

This presentation (the **Presentation**) has been prepared by Unicaja Banco, S.A. (the **Company** or **Unicaja Banco**) for informational use only.

The recipient of this presentation has the obligation of undertaking its own analysis of the Company. The information provided herein is not to be relied upon in substitution for the recipient's own exercise of independent judgment with regard to the operations, financial condition and prospects of the Company. The information contained in this presentation does not purport to be comprehensive or to contain all the information that a prospective purchaser of securities of the Company may desire or require in deciding whether or not to purchase such securities, and, unless otherwise stated, it has not been verified by the Company or any other person.

The information contained in the Presentation may be subject to change without notice and must not be relied upon for any purpose. Neither the Company nor any of affiliates, advisors or agents makes any representation or warranty, express or implied, as to the fairness, accuracy, completeness or correctness of any information contained in this document and, by hereby, shall not be taken for granted. Each Unicaja Banco and its affiliates, advisors or agents expressly disclaims any and all liabilities which may be based on this document, the information contained or referred to therein, any errors therein or omissions therefrom. Neither the Company, nor any of its affiliates, advisors or agents undertake any obligation to provide the recipients with access to additional information or to update this document or to correct any inaccuracies in the information contained or referred to in the Presentation.

Unicaja Banco cautions that this Presentation may contain forward looking statements with respect to the business, financial condition, results of operations, strategy, plans and objectives of the Unicaja Banco and its affiliates. While these forward looking statements represent Unicaja Banco's judgment and future expectations concerning the development of its business, a certain number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from the current expectations of Unicaja Banco and its affiliates. These factors include, but are not limited to, (1) general market, macroeconomic, governmental, political and regulatory trends; (2) movements in local and international securities markets, currency exchange rate and interest rates; (3) competitive pressures; (4) technical developments; and (5) changes in the financial position or credit worthiness of Unicaja Banco's and its affiliates customers, obligors and counterparts. These and other risk factors published in past and future filings and reports of Unicaja Banco, including those with the Spanish Securities and Exchange Commission (**CNMV**) and available to the public both in Unicaja Banco's website (<https://www.unicajabanco.com/es/inversores-y-accionistas/informacion-economico-financiera/informes-financieros>) and in the CNMV's website (<https://www.cnmv.es>), as well as other risk factors currently unknown or not foreseeable, which may be beyond Unicaja Banco's control, could adversely affect its business and financial performance and cause actual results to differ materially from those implied in the forward-looking statements.

Market and competitive position data in the Presentation has generally been obtained from industry publications and surveys or studies conducted by third-party sources. Peer firm information presented herein has been taken from peer firm public reports. There are limitations with respect to the availability, accuracy, completeness and comparability of such data. Unicaja Banco has not independently verified such data and can provide no assurance of its accuracy or completeness. Likewise, certain statements in the Presentation regarding the market and competitive position data are based on the internal analyses of Unicaja Banco, which involve certain assumptions and estimates. These internal analyses have not been verified by any independent source and there can be no assurance that the assumptions or estimates are accurate. Accordingly, undue reliance should not be placed on any of the industry, market or Unicaja Banco's competitive position data contained in the Presentation.

This Presentation includes accounts and estimations issued by the management, which may have not been audited by the Company's auditors. In addition, this document includes certain Alternative Performance Measures (**APMs**) as defined in the guidelines on Alternative Performance Measures published by the European Securities and Markets Authority on 5 October 2015 (ESMA/2015/1415es) (the **ESMA guidelines**). This report uses certain APMs, which are performance measures that have been calculated using the financial information from Unicaja Banco and its affiliates but that are not defined or detailed in the applicable financial framework and therefore have neither been audited nor are capable of being completely audited. These APMs are aimed to enable a better understanding of Unicaja Banco's and its affiliates' financial performance but should be considered only as additional disclosures and in no case as a replacement of the financial information prepared under International Financial Reporting Standards (**IFRS**). Moreover, the way the Unicaja Banco defines and calculates these measures may differ to the way these are calculated by other companies, and therefore they may not be comparable. Please refer to Unicaja Banco's past and future filings and reports including those with CNMV and available to the public both in Unicaja Banco's website (<https://www.unicajabanco.com/es/inversores-y-accionistas/informacion-economico-financiera/informes-financieros>) and in the CNMV's website (<https://www.cnmv.es>) for further details of the APMs used, including its definition or a reconciliation between any applicable management indicators and the financial data presented in the consolidated financial statements prepared under IFRS. In any case, the financial information included in this Presentation has not been reviewed to the extent of its accuracy and completeness and, therefore, neither such financial information nor the APMs shall be relied upon.
